1. EXECUTIVE SUMMARY

The mission covered by this report took place in the Nanga-Eboko Sub-Division, Upper Sanaga Division, Central Province from 15 to 17 July 2004. It followed complaints of various fraudulent logging activities in state forests in the Sub-Division. The mission comprised members of the Central Control Unit (CCU), the Independent Observer (Global Witness) and the Head of the Division’s Forest Section. The mission’s objective was to verify allegations that the Société Générale de Travaux Forestiers (SOTRAF) had, allegedly, and under cover of Timber Recovery Authorisation No. 0023 MINEF/SG/DF/SDAFF/SAG of 29 March 2004 allocated to OMGBA Gabriel et Compagnie (ETOGC), undertaken fraudulent logging of timber in the Mimbang area.

Before leaving for the field, the members of the mission held a work session with the Head of the Forest Section of the Divisional Delegation of the Environment and Forests of Upper Sanaga (DDEF-HS).

On 15 July, the mission toured the site where SOTRAF had been working since March 2004. During the mission’s visit, no work was being undertaken on the site as the machines were awaiting repair. Observations in the field and the discussions the mission had with the managers of SOTRAF and OMGBA Gabriel et Compagnie (ETOGC) revealed that:

- SOTRAF is using the TRA granted to OMGBA Gabriel et Compagnie;
- Before receiving notification as stipulated in the TRA, SOTRAF had already started to fell trees in areas adjacent to the trees covered by this authorisation;

Claiming to work within the TRA, SOTRAF has felled trees in the area adjacent to the TRA area.

Following the investigations undertaken by the mission, the CCU established an Official Statement of Offence (OSO) against OMGBA Gabriel et Compagnie for the felling of new trees and for commencing logging activities without awaiting notification from the Provincial Delegation of the Environment and Forests of the Central Province (PDEF-CE). The OSO established by the CCU raises two problems, one in relation to responsibility for the actions observed, and the other concerning determination of the second offence mentioned.
On the basis of the above, the Independent Observer recommends:

- The summoning and charging the responsible of OMGBA Gabriel et Compagnie for sub-contracting work without prior permission of the forest authorities and commencing evacuation work before notification from the PDEF-EC;
- The summoning and charging of the responsible of SOTRAF for unauthorised logging of 63m$^3$ of wood in a state forest;
- That the areas of wood to be removed through Timber Recovery Authorisations be described as precisely as possible by, for example, using the GPS coordinates.
2. RESOURCES USED
- 1 Toyota Hilux
- 1 Garmin GPS
- 1 digital camera
- 1 Sony laptop
- 1: 200,000 map of the Nanga-Eboko region

3. COMPOSITION OF THE MISSION
The mission comprised Ms Danièlle Essono and Mr Marcel Mamene of the CCU, Mr. Reiner Tegtmeyer of the Independent Observer team, Mr. Maria Philippe, Head of the Forest Section in the Divisional Delegation of the Environment and Forests of Upper Sanaga, and the plaintiff.

4. CONSTRAINTS
No obstacles were encountered in undertaking this mission.

5. MISSION’S FINDINGS
   5.1 Case summary
On 18 September 2003, the director of a local non-governmental organisation (NGO) based in Nanga-Eboko wrote to the Minister for the Environment and Forests denouncing the illegal logging activities taking place in the forests of the Upper Sanaga Division (see Appendix 1).

This report presents verification of the allegations of fraudulent use of Timber Recovery Authorisation (TRA) No. 00233 MINEF/SG/DF/SDAFF/SAG of 29 March 2004 to fell trees in the Mimbang area.

Issued to OMGBA Gabriel et Compagnie (ETOGC), this authorisation relates to the removal of 842,780m³ of timber (of various species) in the Mimbang area. The start of evacuation work is subject to notification from the PDEF and the felling of new trees is prohibited (see Appendix 2). It is SOTCAF that is using this TRA in practice, and failing to respect its terms. To this end, the CCU established an OSO noting the above.

   5.1 Observations of the Independent Observer
During the mission’s visit on July 5, 2004, it was observed that SOTRAF had already started hauling and processing operations for the timber covered by the TRA, as shown in the photographs below (Photos 1 and 2). However, it was only on 21 July that the provincial forest department notified ETOGC of its approval to start evacuating the timber in question, under Ref. No. 888/NDT/MINEF/DPC/SPF/BEIF.
Mr Stanislas Mikap Augustine has declared to the mission that he has been employed by SOTRAF as Site Manager since June 2004. Notices posted for the attention of workers (see Photos 3, 4) indicate that the SOTRAF site has been up and running since at least February 2004.

**Photo 1:** Timber hauling equipment  
**Photo 2:** Sawn timber

**Photos 3, 4:** SOTRAF notices in the TRA area of activity

Whilst touring the TRA area of activity, the mission discovered 10 log ponds containing numerous cut trunks of different species (see Photo 5). Among these, the mission found 26 trunks from recently felled trees, with the majority in 2 yards:

5.2 Analysis of the Independent Observer

The Timber Recovery Authorisation granted to OMGBA Gabriel et Compagnie raises problems regarding the location of the 842,780 m³ of wood it refers to, as well as the use to be made of it.

Concerning the location of the wood, the TRA merely gives it as being at Mimbang, without any other indication, thereby opening the path to various different uses of the same access right in the same area, each time evacuating the same volume of wood.

The use made of the TRA and the problems this gave rise to caused the CCU to establish an OSO against OMGBA Gabriel et Compagnie for felling of new trees, and for commencing operations without awaiting notification from the PDEF.

The Independent Observer does not fully agree with the terms of these charges. Instead of “commencing logging activity without notification…”, the statement of offence should have stated “commencement of evacuation activities…”, an offence attributable to OMGBA Gabriel et Compagnie, with the complicity of SOTRAF. Constituting a violation of the implementing regulations governing the forestry law, this unlawful act is liable to the administrative sanctions stipulated in articles 65 of this law and 130 to 133 of the decree on the application of forest regulations, stipulating the suspension or withdrawal of the TRA or, where appropriate, of the offender’s accreditation.
Secondly, the felling of new trees does not necessarily relate to the TRA and is the sole responsibility of SOTRAF. This company thus committed the offence of unauthorised felling of trees in a state forest, as stipulated and sanctioned by article 156 of the Law of 20 January 1994. Criminal sanctions, namely a fine of between 200,000 and 1,000,000 FCFA and/or imprisonment of between one and six months (law dated 20 January 1994, article 156), do not exclude requiring the offender to pay compensation for damages and interest to the state.

6. CONCLUSIONS AND RECOMMENDATIONS

The investigations undertaken during this mission reveal, on the one hand, that insufficient accuracy in describing the location of the timber covered by the TRA encouraged fraud and, on the other, that by violating the terms of the TRA, SOTRAF has committed several offences of which one, namely the commencement of evacuation work before the required notification, is also attributable to OMGBA Gabriel et Compagnie.

On the basis of the above, the Independent Observer recommends:

- The summoning and charging the responsible of OMGBA Gabriel et Compagnie for sub-contracting work without prior permission of the forest authorities and commencing evacuation work before notification from the PDEF-EC;
- The summoning and charging of the responsible of SOTRAF for unauthorised logging of 63m$^3$ of wood in a state forest;
- That the areas of wood to be removed through Timber Recovery Authorisations be described as precisely as possible by, for example, using the GPS coordinates.

Yaoundé, le 18 septembre 2003
EXCELLENCE MONSIEUR
LE PREMIER MINISTRE

Objet : Exploitations Forestières Frauduleuses.

Excellence Monsieur le Premier Ministre,

Nous venons auprès de votre haute personnalité attirer votre Attention et celle de votre Gouvernement une seconde fois sur les exploitations illégales de bois par des personnes physiques et morales dans les Arrondissements de Minta, Nanga-Eboko et Nkoteng depuis l’an 2000 à nos jours. Nous nous réservons de donner les identifications de ces dernières afin qu’ils ne disparaissent et ne dissimulent les preuves que nous allons démontrer sur le terrain au cour des enquêtes. D’autres persistent malgré le passage des multiples contrôles forestiers.

De tout ce qui précède, et sauf meilleur avis de votre part, nous avons l’honneur de proposer ce qui suit :

1) Nous nous portons garant de faciliter la diligence des investigations sur le terrain avec les éventuels enquêteurs.
2) Qu’il soit interrogé les chefs et les populations de chaque localité exploité que nous citerons pour s’assurer de la vérité des faits.
3) Qu’une prompte mission d’inventaire des bois coupés et abandonnés en forêt, soit mise sur pieds pour essayer de sauver ce patrimoine en péril. Tout en espérant une prompte intervention de la part de votre autorité, nous vous prions d’accepter, l’expression de notre très haute et parfaite considération. /-

LE DELEGUE DEPARTEMENTAL DE L'ENVIRONNEMENT
ET DES FORETS DE LA HAUTE – SANAGA

MONSIEUR LE MINISTRE DE L'ENVIRONNEMENT ET DES FORETS

– YAOunde –

s/c de Monsieur le Délégué Provincial de l'Environnement et
des Forêts du Centre

Yaoundé

Objet :
Evacuation du bois abandonné
par la société CBC.

En vous transmettant le rapport de mission joint par le Chef de
Section Départementale de l'Environnement et de la Vulgarisation de la Haute-
Sanaga, représentant le Chef de Section Départementale des Forêts empêché,
relatif à l'objet repris en marge,

J'ai l'honneur de porter à votre connaissance qu'il existe bel
bien du bois gisant aux parcs et en forêt dans la localité Mimbang. Si la
majorité des essences sont récupérables, certaines par contre sont dépréciées
pendant que d'autres sont attaquées par des insectes.

Par ailleurs, il convient d'affirmer que ce stock de bois est le
reliquat d'une vente aux enchères publiques dont avait bénéficiée la société
comme l'atteste la correspondance du Comité de Développement./-

LE MINISTRE

A
Monsieur Le Préfet du
Département de HAUTE SANAGA

NANGA- EBOKO

Objet : Autorisation d’enlèvement
de bois a/n ETOGC

Monsieur le Préfet,

Je viens de notifier une autorisation d’enlèvement de bois gisant au sol,
portant sur un volume de 842,780 M3 (toutes essences confondues) au lieu dit
MIMBANG de votre unité administrative, à la société ETOGC BP 12728
Douala.

Afin d’éviter une utilisation irrégulière de cette autorisation en
particulier de nouveaux abattages de bois,

Je vous demande de me tenir informé du déroulement des opérations de
terrain et me renseigne sur les difficultés éventuellement dans le bon suivi de
la présente autorisation d’enlèvement de bois./-
